large baffle*1	back iron plate*1	large shelf *1			
					
small baffle*1	table leg connecting board *1	Phillips screwdriver*1	layer nail board*3		
					
3.5*12 screw*7	M6*14 screw*24	M6*30 screw*8	M4*10 screw*3	2 in 1 spiral *33	3 in 1 spiral *5
					
bookshelf corner code*2	awl nut *5	M4*12 umbrella head screw*2	lock handle *35	rubber stopper*2	
					
door handle *1	magnetic *1	lift regulator *1	storage box*1	hook *1	

Installation diagram (subject to actual size)

- (1) Use 8 M6*14 screws to install the left and right table legs to the table top board assembly (the long end of the table legs is in the same direction as the handle);
- (2) 1. Insert the hexagonal ribs into the hexagonal holes of the left and right table legs (the fixing parts can be loosened);
2. Put 4 awl nuts into the table leg connecting plate, and then use 4 M6*30 screws to tighten to the awl nut (note: the hole of the connecting plate faces forward)
- (3) Use 4 M6*14 screws to install the drawer bracket on the desktop board assembly (note: to be installed in pairs, the guide rail is pulled out in the same direction as the hinge, and the damper cable needs to pass through the recess hole of the drawer bracket)
- (4) Install the two drawer side plates with screws, and then install the drawer top plate, bottom plate, and back plate on the right side plate of the drawer respectively. (Note: the holes on the back plate face backward, the holes on the bottom plate face down, and the handle Don't tighten yet)
- (5) Install the left side panel of the drawer and tighten all lock handles;
- (6) Install the drawer pen box on the drawer: use 4 M3.5*12 self-tapping screws to tighten (note : install the top first, then install both sides)
- (7) Install the drawer on the desktop assembly frame: tighten with 3 6*30 screws, check whether all the screws have been tightened;
- (8) Bookshelf installation:
1. Install 2 ply nails to the movable door, and install the door handle with 1 M4*12 umbrella head screw.
2. Use 16 two-in-one screws to install on the side plate of the bookshelf, and use two 3.5*12 countersunk heads to install the magnetic suction
3. Install the wooden boards in the order of installation in the figure, and tighten all lock handles
- (9) 1. Install 4 three-in-one screws on the iron frame of the bookshelf (note: the three-in-one screws are slow tapping with fine teeth).
2. Install the large shelf, large baffle, and tighten the lock handle.
3. Install the back iron plate with 4 M6*14 screws.
- (10) Use 4 M6*14 screws to install the corners of the bookshelf on the side plate of the bookshelf and tighten them.
- (11) 1. Place the bookshelf on the desktop and tighten the bookshelf knob;
2. Insert the plastic drawer into the drawer rail;
3. Put the storage box on the back iron plate;
- (12) 1. Use 2 M4*10 screws to install the hook on the desktop assembly;
2. Press the drawer panel and insert the column into the guide rail;
3. Put 2 rubber plugs into the rocker hole to complete the installation;

(Reminder: When the table needs lifting adjustment, first remove the rubber plug, and then put it in the lifting regulator)
